The ProBin T-Bin with solid side panels and floor, double wall construction and a standard pallet footprint is ideal for food, beverage, and industrial applications.

### Features

- Injection-molded, high impact resistant plastic stands up to heavy day-to-day use. The one-piece design eliminates the problem of product getting trapped between the side walls and base
- Lightweight construction reduces shipping costs and makes ProBins easier to move. This large capacity bin only weighs 127 pounds
- Insulated with double wall construction, the 44-S is well-suited for refrigerated or frozen products
- FDA-approved materials are certified safe for use with food products, eliminating many HACCP problems associated with wood bins
- Rounded corners and smooth surfaces mean less damage to your product. The need for expensive liners may be eliminated
- Nonporous surfaces won't absorb water or dehydrate your product like wood bins, and they provide a constant tare weight throughout their use
- Easy-to-sanitize ProBins keep cleaning costs to a minimum. A high-pressure wash removes most debris; a nonabrasive brush can dislodge any remaining items

### SPECIFICATIONS

| ITEM  | EXT DIMENSIONS |       |        | INT DIMENSIONS |       |         | CAPACITY        |       |     |       | WEIGHT |
|-------|----------------|-------|--------|----------------|-------|---------|-----------------|-------|-----|-------|--------|
